EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: cancel claims 20-26.

2. Claims 1-19 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

Bundy et al (3,179,979) teach a high pressure die, comprising a plurality of arcuate complementary die segments (13-18) forming a horizontally oriented cavity (12), a pair of anvils, or a plurality of punch members (47) forming a die cavity.

However, Bundy et al fail to teach or suggest a plurality of forces member for applying a plurality of discrete forces to the punch members. Wherein the discrete force is defined as a force vector, which has an identifiable source and is associated with a single force vector, as opposed to a summation of somewhat random forces acting on a body, e.g., a gas or liquid surrounding a body. See specification, page 6, lines 27-30.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
